**Our Focus**

# Bio Fertilizer Manufacturer

The Bio Fertilizer manufactured by us is free from all chemical ingredients. The bio fertilizers helps in maintaining soil fertility and also reduces pre dropping of flowers and fruits. All these are natural, organic and environment friendly. We inspire our clients to make use of bio fertilizer products that generates happiness and also safeguard the future of next generation.

## Features:

- Eco friendly nature
- Long functional life
- Vital nutrients
- Protection against soil borne diseases.

# Organic Fertilizer

Our company deals in manufacturing and supplying Organic Fertilizer that are processed utilizing the high grade substances of living microorganism under benign condition. Organic Fertilizers have proven to be the natural way of growing great vegetables, fruits, and abundant shrubs, flowers etc.

## Features:

- Increases fertility of Soil
- 100% free from chemical ingredients
- Ecofriendly in controlling diseases and insects
- Promote healthier plant root development

# Agricultural Fertilizer

Being a promising manufacturer, we are committed in supplying Agricultural Fertilizer that helps in growth of plants and crops. These fertilizers are directly inserted into the soil. Agricultural fertilizers are very beneficial as they increases physical and biological nutrient storage mechanisms in soils, mitigating risks of over-fertilization

## Features:

- Increases density of soil
- Highly effective in providing nutrients to soil
- Free from impurities

# Micronutrient Fertilizer

Jaivik offers a quality range of Micronutrient Fertilizers in India. These fertilizers are very useful for higher productivity and improves the quality of fruits & flowers. It widely finds application in agricultural, horticultural & crop plantation. As our fertilizer increases soil fertilizer, we are reckoned as one of the best Micronutrient Fertilizers Manufacturer in national and overseas market.

## Features:

- Known for high effectiveness
- Free from all impurities.
- Enhances plant growth
